NEW DECOMPRESSION TABLE RELIEVES PAIN

We've got your back!
Strong Chiropractic Inc.

Darren Strong from Strong Chiropractic, announces a new, sophisticated computerized decompression table that allows the spine to be gently stretched and relaxed for spinal decompression therapy.

The pattern of alternating pulling and relaxing creates vacuum-like pressure which allows disc material that was herniated or protruded to be pulled back in the disc over time.

Patients will notice a reduction of their pain during these treatment sessions. Stop in today and ask about the new table and how you can benefit.

Take 2

PAUL POWER

This week I'm looking back at the scariest horror film that I've ever seen: **'Prince of Darkness'** is a 1987 American supernatural horror film written and directed by John Carpenter, starring Donald Pleasence, Victor Wong, Jameson Parker, Alice Cooper and Lisa Blount. It's the second installment in what Carpenter called his "Apocalypse Trilogy" that began with 'The Thing' (1982) and ended with 'In the Mouth of Madness' (1994). This film followed a group of quantum physics students in Los Angeles who are asked by the Catholic church to assist in an investigation of an ancient cylinder of liquid discovered in a monastery, not knowing that the liquid is the embodiment of Satan. In a 2012 interview with Rue Morgue Magazine Carpenter revealed how he created the eerie dream sequences in 'Prince of Darkness' (featuring a shadowy figure emerging from a church doorway) as Carpenter first shot the action of the figure (played by actor Jessie Ferguson) with a video camera and then "re-photographed it on a television set" in order to give the image a peculiar, dislocated feeling that appeared as if it was being filmed live. That sequence is terrifying. The Priest and head scientist had a theory that Satan is actually the offspring of the "Anti-God", an even more powerful force of evil bound to the realm of anti-matter. The survivors have a shared recurring dream of a broadcast from the future, 1999 to be exact, showing that shadowy figure emerging from the front of the church. The dream progresses with each passing night. Without getting into any religious dogma or beliefs here, the mere thought that the Devil is an actual being living in a church basement waiting for his 'father' to return for him is what made this film so damn scary, and the warnings from the future just made that even more intense.

- TAX TIPS 2026 -

ARE YOU A NEWCOMER TO CANADA?

Many newcomers qualify for benefit and credit payments based on their income and family situation. You could qualify to get these payments as soon as you arrive in Canada, even before you file your income tax and benefit return for the first time.

To keep getting these payments, you must file a tax return every year, even if you had little or no income. Your spouse or common-law partner, if you have one, also needs to file every year. As a newcomer to Canada, you are required to file your tax return for the year you become a resident for tax purposes. For example:

If you arrived in 2025, you must file your 2025 tax return by April 30, 2026.

If you arrived in 2026, you must file your 2026 tax return by April 30, 2027.

WHY YOU SHOULD FILE A TAX RETURN -You need to file a tax return every year to: Get a refund (if owed), Keep getting benefits and credits, such as: Canada Groceries and Essentials Benefit (formerly the GST/HST credit): A payment every three months, which may include provincial or territorial program amounts, to help with the tax you pay on goods and services.

CANADA CHILD BENEFIT: A payment every month, which may include provincial or territorial amounts, to help with the cost of raising children.

PAY ANY TAX YOU OWE - In most cases, the Canada Revenue Agency (CRA) automatically considers you for benefit and credit payments when you file your tax return.

DEADLINE TO FILE - The due date is April 30, 2026. Make sure to file your tax return and pay any amounts you owe on time!

If you're self-employed - What you need to file, Social Insurance Number, you will receive tax slips (such as a T4, T4A, T5, or T5007), if, for example, you worked in Canada or earned investment income during the year. These slips are normally provided by your employer or financial institution by the end of February.

Use these tax slips to accurately report all Canadian income on your tax return.

IMPORTANT: On your tax return, you must also report any income earned outside of Canada for the part of the year that you were considered a resident of Canada.

WEEKLY SMILE

The Burglar Did It!

Dad had just finished laying a new Arborite counter top and he warned my brother and me not to go near the new countertop. Of course we headed for it right away and starting playing with our Dinky cars as they raced along the top quite nicely.

As boys will, we started to crash the cars and suddenly there was a chip out of the new countertop. Our lives brefly flashed before us as we knew dad would blow his top when he saw the chip, so we decided to fabricate a story to explain the damage.

We decided to say that a burglar broke in and did the damage (did I mention that we were 8 years old?) When my father got home and spied the damage he immediately called us into the kitchen to explain the damage.

My brother confidentally told our father that a burglar broke in and did the damage with a knife. My father asked how the burglar got in and my brother looked kind of stunned so I piped in with, "he broke the kitchen window".

My father turned around and looked at the window and said, "How come the window is not broken?" My brother then blurted, "the burglar came back and fixed it!"

My father then headed for the phone and said he was going to call the police and report the incident. We both broke into tears and confessed to the damage.

Needless to say, we were caught up in this stupid lie and realized we would have to get better at making up stories in the future.
